

Dear Supporter,

Autism Foundation of the Carolinas (AFC) has developed a comprehensive list of all resources available to children with Autism Spectrum and related disorders and their families. We would greatly appreciate your help in keeping this up to date by taking five minutes to list the resources you have used or are aware of that are not currently on the list.

AFC is the effort of individuals with an interest in assisting families in the Charlotte area who have children on the autism spectrum or have some type of developmental and/or neurological impairment. It is the desire of AFC to help families affected find solutions and provide funding for them. In addition, AFC is dedicated to developing programs to enhance and improve their lives. Below is our mission statement.

Our mission is to assist children with autism spectrum and related disorders to achieve fulfilling, productive and independent lives by:

- Providing families and caregivers **access to information and resources** regarding programs, services, therapies, and alternatives to help their children.
- Providing **financial assistance** to families and the institutions that support the development of these children throughout their lifespan, and
- Increasing the knowledge and understanding of these children, their needs and their families' needs through **community awareness and educational programs.**

Thank you for helping us gather information as we fulfill our mission. We are grateful for your time and for sharing your experiences with us.

Provider (Group and Therapist Name)	Phone	Other Contact Information Incl Website, if available	Comments (optional – not to be published)	Worked With: < 1yr, 2 – 3yr; <3yr
